Andy joined Inland Companies March 2007 as a technician for Inland's Facility Maintenance Division, PROTECH. Andy's skill level and dedication allowed him to swiftly transfer to Inland Construction as a Superintendent in January 2008.

Andy's day-to-day responsibilities for Inland Construction include on-site supervision for commercial construction projects, scheduling all sub-contractors and ensuring timely job completion.

Prior to joining Inland, Andy was a System Designer/Technician where he designed, installed and provided proposals for installation of wiring infrastructure for audio and voice data communication and media/theater systems for residential and commercial clients, including home builders.
