Milwaukee, Wis. – Lyle Landowski and Scott Welsh with the Milwaukee office of Inland Companies, represented American City Business Journals in a 10,000 square foot lease transaction at The Jefferson Building located at 825 N. Jefferson Street in Milwaukee.

American City Business Journals is the largest publisher of metropolitan business newsweeklies in the United States, with 40 business journals across the country reaching more than 500,000 subscribers each week. The Milwaukee location of the Business Journal has outgrown their current space in the Walkers Point area of downtown Milwaukee and is moving their location to The Jefferson Building.

The Jefferson Building is a class “A” office building located in heart of downtown Milwaukee, next to Cathedral Square Park. The building is within walking distance to many restaurants and retail stores, giving its tenants high exposure.
