Mequon, Wis. – Inland Construction has recently been awarded the contract for developing from the ground-up, the newest Quintessa Medical Spa. The 5,360 square foot medical building will be located at 10606 N. Port Washington Road in Mequon, Wisconsin. This will be Quintessa’s second location and expand the services and care begun by their first premier medical spa located in Sheboygan, Wisconsin.

Quintessa Medical Spa is renowned for providing lasting results for full facial and skin rejuvenation with little or no down time. They are accredited by International Medical Spa Association and led by medical director, Dr. Andrew Campbell M.D. Quintessa Medical Spa offers Customized BOTOX[®], Wrinkle Fillers like Restylane[®], Perlane[®], Juvéderm[®], and Radiesse[™], Laser and Chemical Peels, Laser Hair and Vein Removal, and medical grade skin care products (i.e. Obagi[®], IS Clinical[®], Jan Marini, Colorescience[®], and Clarisonic[®]).

Ron Issleb, Project Manager with Inland Construction, states:

“The front elevation combines a curved roof line that blends into a glass reception area that extends the width of the front elevation, which gives this office a unique look.”

Ron and his team will be working through the summer on this project with a completion date set for November of 2009.
